SHOP NOW

Color: Green

Dream of growing your own produce at home? The Aerogarden Harvest 2.0 brings a thriving vegetable garden to any space with no mess, no maintenance, and guaranteed results. Within 6 weeks, you'll be harvesting tender lettuces, sweet and juicy tomatoes, and bunches of herbs in any season and without any chemicals. Harvest just what you need, reducing what you waste and keeping plastic out of landfills. A stylish, compact design fits seamlessly into any room in your home, no soil or sunlight required.

HARVEST 2.0 FEATURES

- Grow up to 6 different plants 5x faster than soil. GMO and pesticide free.
- Detachable 15W LED grow light with automatic timer
- Smart technology tells you when to add water
- Easy to assemble and maintain—just set up and watch it grow!
- Sleek, compact design fits anywhere in your home
